

SK2211 Performance of Democracy Course Report 2023

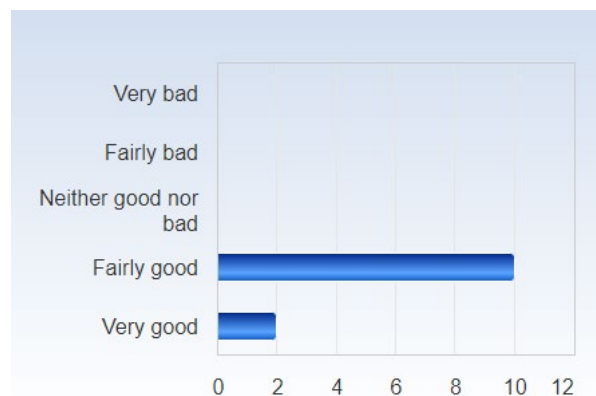

22 students were registered for the course. At the time of writing the course evaluation, 16 students had completed the course (8 with a VG and 8 with a G). No substantial changes were made to the course this year compared to last year. The course was reviewed in the Spring of 2023, but the notes from the meeting were not consolidated and sent to the course coordinators in time to revise the course already in the Fall of 2023. Thus, these suggestions will be considered in course planning for next year. 12 students completed the course evaluation on which this course report is based. All aspects of the course were rated fairly good or very good by a majority of students. In responses to other questions, the majority of students spent about 21-30 hours on coursework per week and the majority of students found the amount of work they were requested to carry out was about right.

There were very few open-ended responses from the students. Among the more detailed, constructive comments were the following. There were some suggestions that the literature could be more recent, that the lectures could encourage more discussion and that the presentation groups in the seminars could be smaller. We will take these comments into consideration in course planning next year.

Below graphs are included that summarize the students' responses in their evaluations.
