

SK2211 Performance of Democracy Course Report 2025

22 students were registered for the course. At the time of writing the course evaluation, 13 students had completed the course (8 with a VG and 5 with a G). No substantial changes were made to the course this year compared to last year. 7 students completed the course evaluation on which this course report is based. Most aspects of the course were rated fairly good or very good by a majority of students. The assessment of course literature and the final paper assignment were less positively rated. Student comments suggested that less literature be assigned per lecture and that a description of methods be included in the final paper assignment. We will consider changes along these lines in planning the next course. Otherwise, there were very few open-ended responses from the students that suggested any repeating problems with the course. To the contrary, many students wrote about various positive experiences in the course.

Below statistics from the evaluations are included that summarize the students' responses in their evaluations.
